Summary

Enthusiastic Software Engineer eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Clear understanding of Requirements and training make use of my skills, knowledge and expertise while benefiting from the organization's prospects for growth and career development. Motivated to learn, grow and excel in organization/institution. Energetically fabricate customized imperatives through cooperative catalysts for change.

Experience

Full Stack Developer

Nodlays

Jul 2019 – Present

- Demonstrated consistent skill development and growth in both .NET and ReactJS
- Contributed reusable code in .NET to expedite project completion time.
- Conducted thorough research, gathered vital information, and presented findings to facilitate informed decision-making in projects
- Executed tasks with precision and efficiency in .NET and ReactJS development
- Devised, developed, and executed performance improvement plans to enhance project outcomes
- Excelled in a fast-paced environment, delivering results within tight deadlines
- Deployed multiple high-performance .NET applications, emphasizing user experience and optimization
- Improved code quality and maintainability to enhance project outcomes
- Collaborated with cross-functional teams, fostering effective communication and cooperation in .NET and ReactJS development
- Worked autonomously to effectively handle small- and large-scale projects.
- Managed documents and workflow, following established procedures for optimum productivity.
- Implemented intuitive, easy-to-navigate and aesthetically pleasing user interfaces.
- Developed and approved designs in data management and database design.
- Designed, coded, tested and deployed new features and functionality using CI/CD best practices.
- Maintained existing software through bug fixes and enhancements.
- Drafted software requirements and managed design and testing processes.

Junior Web Developer

TechLogs

Feb 2018 - Mar 2019

- Collaborated effectively with stakeholders to ensure that creative proposals and design best practices were consistently applied throughout the development process in React and .NET applications.

- Orchestrated full-cycle design tasks, meticulously overseeing every phase from conception to completion, while upholding design guidelines and ensuring seamless integration within React and .NET development frameworks.
- Leveraged expertise in React, JavaScript, HTML, and CSS to craft intuitive, user-friendly interfaces for .NET applications, enhancing user experience and engagement.
- Demonstrated proficiency in data management by meticulously cleaning and filtering imported data for .NET applications, ensuring data integrity and accuracy.
- Actively participated in the entire development lifecycle of company web applications, successfully leveraging React and .NET technologies to deliver high-quality, scalable solutions.
- Employed SQL queries to effectively retrieve, manipulate, and analyze data within React and .NET applications, contributing to robust data-driven decision-making.

Developer (Intern)

Experts Batch

May 2017 - Dec 2017

- Designed and developed web applications using Django and Laravel frameworks, Photoshop and Dreamweaver software, and HTML and JavaScript languages.
- Supported senior front-end developers in creating web solutions that met client requirements and specifications.
- Acquired skills in professional conflict resolution and teamwork with colleagues.
- Learned to communicate effectively with clients, present designs, and handle feedback.
- Assisted senior developers in debugging code, improving website performance and user experience.
- Created user interfaces with modern web technologies, such as JavaScript frameworks, HTML5, and CSS3.
- Troubleshoot and debugged code, ensuring cross-device, cross-browser, and cross-platform compatibility.

Education

Superior College

Bachelor's in Software Engineering

2015-2019

Skills

- | | | |
|------------------------|------------------------------|-----------------------------|
| • MSSQL / Mongo | • Third Party API | • Asana/Jira |
| • Database | • Algorithms | • Git / GitLab / Sourcetree |
| • HTML/HTML5 | • CSS/CSS3 | • ReactJs |
| • Asp.NET | • JavaScript / JQuery / Ajax | |
| • .NET Framework (MVC) | • Agile Methodologies | |
| • .NET Core | • SCRUM | |
